Projects

Rest Countries API – ReactJS/Tailwind/JavaScript/Fetch

git: <https://github.com/jmrc1995/Rest-Countries-NEXTJS>

src: <https://rest-countries-nextjs-zeta.vercel.app/>

An application that fetches for countries utilizing the REST countries API.

Users can filter through countries by region.

Users can search for a specific country.

Good Soup – Spotify API – ReactJS/Tailwind/JavaScript/Axios

git: <https://github.com/jmrc1995/goodsoup>

src: <https://jmrc1995.github.io/goodsoup/>

An application that returns your most played tracks. Users must have a Spotify account to pass authentication.

To-do Application – HTML/CSS/JavaScript/ReactJS

git: <https://github.com/jmrc1995/Rest-Countries-NEXTJS>

src: <https://github.com/jmrc1995/ToDo-App-JMRC/tree/master>

An application that displays user's input and has features that enable users to add and delete from a list of tasks.

Work Experience

SHI, Somerset, NJ

11/2021 – 01/2022

Inside Account Manager

- Improved and consolidated end-to-end service processes; shared my extensive knowledge on hardware and software with my team and cut down communication flow with the consumer and manufacturer.
- Collaborated with outside sales to provide hardware, software, and service support to assigned customers.

FedEx / FedEx Freight, Newark, NJ

07/2017 – 06/2018

Operations Manager

- Lead a team of 120 employees.
- Improved safe work practices, cut down on days without injury by 20%
- Developed a plan for distributing break loads that cut down on package re-handling by 50%.
- Planned daily manpower needs and sets schedules
- Communicated with Account Manager(s) to ensure customers and company's needs were met.

Education

New Jersey City University, B.S. Computer Science

05/2021
